

Marshmallow was found with her sister Candy, having been abandoned on a building site where they were living under a metal sheet. HD rescued

them and with lots of love and tasty treats, both dogs came out of their shells. Marshmallow made her journey from Thailand to Dublin, arriving on February 23, 2025. She is now living in her forever home in Carrigaline, thanks to the Happy Doggo and the family that adopted her. One person can make a huge difference...

How can you help?

1. Donate to Happy Doggo on their website: <https://www.happydoggo.com/>
2. Start a fundraiser: look out for our raffle in school. All proceeds will be going to HD.
3. Raise awareness by passing on this leaflet.
4. Adopt a dog - you pay for the dogs travel expenses. Everything else is taken care of by HD.
5. Subscribe to the HD newsletter on their website.
6. You can also leave a gift in your will.

Make sure to follow The Happy Doggo on social media for updates:

Happy Doggo (HD) is a foundation made for helping street dogs in need from the streets in Thailand and around the world. It was founded by Niall Harbison from Co. Tyrone. The main goal of HD is to **sterilise (neuter)** the dogs to stop the breeding, therefore trying to decrease the line of helpless dogs on the streets. To date HD has helped:

Feed: 1,000 dogs (daily)

Rehome: 59 dogs (globally)

Rescued: 50,000

HD has 8 CVNR (Capture, neuter, vaccinate & release) partners in Thailand and Southeast Asia. They have relied on them to deliver **life-saving sterilisations**. They have sterilised **50,000** dogs up to February 2025.

Every day, the HD Team **feeds over 800** street dogs across the island of Koh Samui. The best way to keep dogs healthy is to feed them a healthy diet. Meals served in 2024: **295,800**

There are thousands of dogs in Thailand with many conditions such as skin conditions to broken bones. HD land is where Niall brings the sickest dogs, giving them **specialised treatment and care** until they are healthy enough to go back or be adopted.

When HD comes across a dog that has been badly abused, is suffering on the streets, or is simply too young or weak to survive on their own, the HD work to **find them a forever home** in Thailand or abroad. However, Adoption is not a long-term solution to the street dog problem.
